

RECORDY FOR ANYTHING

Deubel engineers and manufactures the **2UP**, high performance mountain bike frames which are CNC machined and TIG welded in Sydney, Australia. Its unique adjustable design makes it the perfect all-mountain bike so you can charge anything from technical steep uphill to fast downhill tracks.

Test ride the Deubel **2UP** today!

BREAKTHROUGH TECHNOLOGY

ENCAPSULATED SUSPENSION

Want 36% greater pedalling efficiency and precision control to charge anything? Deubel **2UP**'s unique swingarm system sandwiches the lower tubes of the swingarm to resist the most lateral forces during pedalling and cornering. As a result, you'll pedal more efficiently and accelerate faster because more energy is directly transferred into the traction of your rear tyre. You will also corner and ride rougher terrain with greater precision and confidence because your rear wheel will be exactly where you want it.

ADJUSTABLE GEOMETRY

The Deubel **2UP** has easy-to-tune geometry with interchangeable shock mounts and dropouts to adjust the head angle, bottom bracket height and chain stay length. You choose the shock mounts and dropouts to configure your **2UP** as either a nimble trail bike, or lengthen it for more stable downhill performance. Alternative shock mounts and dropouts can also be purchased separately.

WHY DEUBEL *2UP*?

ALL TERRAIN

Interchangeable shock mounts and dropouts provide adjustable geometry for riding anything.

PROUDLY HOME GROWN

Hand made in Australia for exceptional quality construction. Meets Australian Standards.

LIGHT WEIGHT

Premium quality EA6X Easton aluminium light weight tubing with 30% extra strength.

36% EFFICIENCY GAIN

Unique Encapsulated Suspension System provides maximum pedalling efficiency and cornering precision.

2UP FRAME KIT

SPECIFICATIONS

- 6" engineered rear travel
- Fox RP23 exclusively tuned by Fox Racing
- EA6X aluminium Easton tubes
- Interchangeable shock mounts
- Interchangeable dropouts
- Encapsulated Suspension System (patent pending)
- ISCG05 mount
- 1.5" head tube
- Swingarm internal cable routing
- 3.7kg (medium size with shock)
- \$2,925 incl. 3 year warranty.

2UP BIKES

2UP ALL MOUNTAIN BIKE

- Fox 36 Float 160mm RC2
- 2 x 10 speed
- 14.2kg (excl. Pedals)
- 3 year frame warranty
- \$5,735 (Sram X9)
- \$5,450 (Shimano XT).

2UP TRAIL BIKE

- Fox 32 Float 150mm RLC
- 3 x 10 speed
- 13.5kg (excl. Pedals)
- 3 year frame warranty
- \$5,475 (Sram X9)
- \$5,300 (Shimano XT).
